

Wyrallah Road Public School

Project Update | April 2023

What is happening at Wyrallah Road Public School

A project to deliver remediation and repair works to Wyrallah Road Public School after it was damaged by floods in early 2022, is progressing well. Working closely with the school, we are delivering refurbished and flexible learning environments, and core facilities that will support the long-term needs of the local community. In addition to refurbishing and remediating flood damaged areas of the school, we are simultaneously delivering planned maintenance works to streamline works and minimise disruption on the school community.

Current Status

- Mould remediation and drying out of brickworks has been completed in the Hall storage room, Block O subfloor and the General Assistants' buildings (P Block).
- The nature playground has been remediated with new mulch and has been returned to the school for use. A new adventure playground with soft fall will be installed in Term 1, 2023.
- The flood damaged sports court will become additional carparking. A relocated multi-purpose sports court is well under construction.
- Drainage works around Block N have been completed with new concrete poured. Block B works include drainage installation and concreting and will commence around the Easter holidays to reduce disruption.
- Under planned maintenance, the boys' and girls' toilets in Block L were stripped out and modernised over the summer break, as well as being externally painted. They have been returned to the school for use.

Next Steps

Block B works include drainage installation and concreting to resolve ongoing water issues in the lower rooms. and will commence around the Easter holidays to reduce disruption. Block F toilets will also be upgraded.

Undertaking simultaneous works, along with materials and workforce supply delays, has extended the early forecast project completion. The combined planned maintenance works, and flood related works are now due for completion in early Term 3. We will work to deliver these projects as soon as possible and keep the school community informed throughout the delivery of the works. We thank you for your patience during works.
