

Crabbes Creek Public School

Flood remediation works complete | October 2023

Message from the Principal

On behalf of the Crabbes Creek Public School learning community, I am pleased to announce that our exciting school upgrades are complete. To have our wonderful original school back, following the devastating floods of 2022, means a lot to our whole community.

The recent investment in our school with both flood remediation and planned maintenance funds has significantly improved our school for the better. All our buildings have been remediated and modernised. Two classrooms have been raised to the same height as other buildings at the school and have been fitted with new furniture and modernised fittings, to create inspiring learning spaces. The canteen has been remediated with new extended seating and decking, including an access winding ramp. We have upgraded bathrooms, playgrounds and sports fields, teachers' facilities, and added a new bitumen car park.

It has been an honour to be involved in the completion of the repair, remediation and maintenance works of Crabbes Creek Public School. I would like to thank the community for their patience. I would also like to thank all the people involved in realising our new facilities during such trying times. I look forward to an exciting future for our students as we make the most of these opportunities.

Brev Belleville
Principal

Remediation is now complete

Two classroom and administration buildings were raised to meet the 2017 Tweed Council Development Control Plans, and National Construction Code compliance. The remediated canteen has new extended seating and decking, with an all access ramp. The bathrooms facilities have been modernised. Further works include a new soft fall playground, sandpit, sports court, cricket pitch, teachers' facilities, a new bitumen carpark, and an upgraded library.

Modern classroom layout

Modernised classrooms

The raised buildings housing two classrooms, administration, teachers' facilities, the communications room, and the principal's office, have been stripped out and modernised. The classrooms have retained their local exterior feel but have been modernised on the interior to include new walls, acoustic ceilings, windows, pinboards, white boards, audiovisual equipment, sinks, blinds, screens and window fittings, and creative furniture designed for collaboration.

Contemporary small library design

Remediated kitchen

Remediation and planned maintenance works delivered:

Decontamination and cleaning of all school buildings

Raising of two classroom and administration buildings

Raised and remediated canteen, cleaner's area, sports store, and access toilet

New decking and tiered seating

Covered walkways connecting the entire school

New school wide electrical fittings, plumbing and lighting

New communications infrastructure and security fit outs

All of school landscaping

Full internal and external painting

New flagpole

New peripheral fencing and front fencing

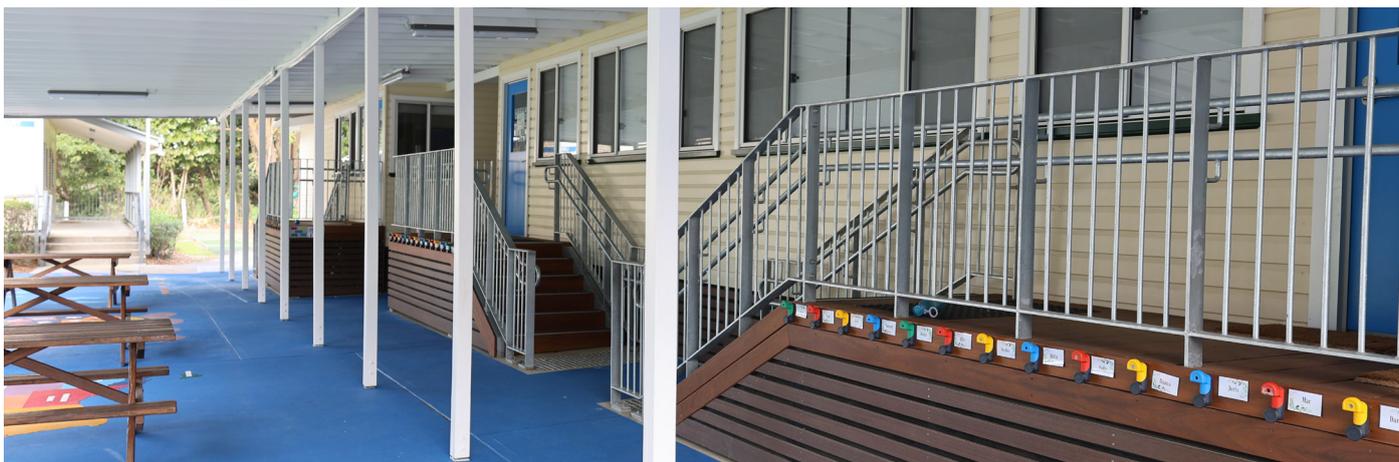

Upgraded sports court, cricket pitch and soft fall

Resurfaced and painted sport court

Remediated play areas

Raised and renovated classroom and administration buildings

Raised and renovated canteen, extended seating, access ramp and covered walkways

Thank you

We would like to thank you for your patience as we have delivered these flood remediation and maintenance works to the school. Your support and co-operation has been invaluable and made it possible for us to deliver these new and upgraded facilities for the students and staff of Crabbes Creek Public School
